

Dedicated professionals helping
to build the mining industry

Why choose ALTO?

- ⬢ We deliver on schedule and within budget.
- ⬢ We are experienced with building logistics for remote and isolated locations.
- ⬢ Following best practices, ALTO projects are safe, competent and secure, and adhere to strict Quality Control and Quality Assurance standards.
- ⬢ We are goal-oriented. We view each project as a challenge and have a reputation for accurate and efficient fast tracking.
- ⬢ Our scheduling expertise results in organized and streamlined project and personnel management.
- ⬢ All work is confidential, and we work with you to build the best team for your project.
- ⬢ We are team-builders, specializing in bringing the right people together — yours plus ours — to meet your project's requirements.
- ⬢ With more than 35 years of experience in the industry and national and international clients, we have a proven track record.
- ⬢ We have a large database of skilled workers available across Canada to work.

“Your commitment and dedication to the project helped keep the PCS Rocanville project on budget and ahead of schedule. Thank you for your part in this successful project.”

– Bruce Leech, P.Eng (Manager, Engineering, AMEC)

Who are we?

ALTO CONSTRUCTION LTD. is a Saskatchewan-based company that provides complete plant construction, maintenance, and operation services to mining-related industries. Services include civil, structural, mechanical, or electrical. ALTO also dismantles, transports, or relocates facilities. Such services range from working with specific components — such as head frames, grinding mills, or power plants — to installing complete mine plants.

Since its establishment in 1969, ALTO has an excellent record of safety and performance in the mining industry. This achievement underlines the company's integrity and dedication, and inspires ALTO to uphold its high standards when serving clients.

Mission Statement

ALTO CONSTRUCTION LTD. delivers dedicated construction and maintenance services in a safe, reliable and timely manner, serving the mining and petrochemical industries with integrity and a wealth of experience.

ALTO teamwork — a good fit.

ALTO contributes to the development of Canadian resources by expediting skilled personnel and equipment to often remote locations across Canada. Operating with an open-shop policy, we employ qualified and multi-skilled tradespeople. Our policy is to employ and train the maximum number of skilled personnel available in the area of the work, combined with labour from outside the immediate area, to build a highly motivated and efficient team. The hands-on teamwork approach of ALTO's motivated workforce results in safe, cost-effective, and on-time performance.

Major Building Projects

- ◉ *Barrick Gold Corp. (Bond Gold Canada Inc.): **Golden Patricia Mine**, Pickle Lake, ON*
Prime contractor for site preparation, civil, mechanical, piping, and electrical construction provided for a 250-tpd gold plant. (manpower: ~75)
- ◉ *Cadillac Explorations: **Prairie Creek Mine**, Prairie Creek, NWT*
Prime contractor for the construction of a 1,000-tpd base metal mill complete with infrastructure, including moving its concentrator over a winter road from Northern BC to the NWT mine site. (manpower: ~150)
- ◉ *Centerra Gold Inc. (Cameco Corporation): **Kumtor Gold Mine**, Tien-Shan Mountains, Kyrgyzstan*
Civil, structural steel, and cladding construction provided for a 13,200-tpd gold mill; civil, structural, mechanical, and electrical construction also provided for ancillary facilities. (manpower: ~100)
- ◉ *Cameco Corporation (Eldor Mines Ltd.): **Rabbit Lake Mine – B Zone Expansion**, Rabbit Lake, SK*
Prime contractor for the civil, structural, mechanical, piping, electrical, and instrumentation construction. (manpower: ~210)
- ◉ *Areva Resources Canada Inc. (AMOK Ltd.): **Cluff Lake Mine – Phase 2 Expansion**, Cluff Lake, SK*
Prime mechanical contractor for the structural, cladding, mechanical, piping, electrical, and instrumentation construction. (manpower: ~110)
- ◉ *Cullaton Lake Gold Mines: **Cullaton Lake Gold Mine**, Cullaton Lake, NWT*
Prime contractor for the construction of surface plant facilities provided for a 250-tpd gold plant. (manpower: ~75)
- ◉ *Curragh Resources Inc.: **Faro Mine**, Faro, YT*
Prime contractor for refurbished mill and mine equipment; provided the workforce necessary to start up and operate the mine, including the 12,000-tpd mill at Faro, YT. (manpower: ~400)
- ◉ *HudBay Minerals Inc. (HBM&S): **777 Zinc Plant Expansion**, Flin Flon, MB*
Prime contractor for civil, structural steel, piping, mechanical, and electrical construction provided and completed while existing plant continued to operate. (manpower: ~75)

Always a step ahead.

We excel at setting achievable goals and in delivering services on time and on budget. ALTO's major goal is to address your project needs safely, on time, and exceeding your expectations.

- ◉ *Claude Resources Inc. (Madsen Gold Corp.): **Madsen Gold Mine**, Red Lake, ON*
Civil, structural steel and cladding construction provided, as well as preliminary mechanical installations for a 400-tpd gold mill. (manpower: ~75)
- ◉ *PCS Potash (Potash Company of America): **Patience Lake Mine Expansion Project**, Saskatoon, SK*
Prime contractor for the completion of a major expansion project — including civil, structural, mechanical and electrical construction — when the prime contractor was unable to complete the work. (manpower: ~100)
- ◉ *PCS Potash: **Rocanville Expansion and Compaction Upgrade Project**, Rocanville, SK*
Major mechanical installation of owner-supplied equipment and materials; supplied and installed major piping components, HVAC ducting, and dust collection ducting for the CCT3 construction. (manpower: ~125)
- ◉ *PCS Potash: **Rocanville Expansion and Compaction Upgrade Project**, Rocanville, SK*
Selective demolition of owner's equipment and structural steel; major mechanical installation of owner-supplied equipment and materials; supplied and installed piping, concrete, and dust collection ducting for the CCT1, CCT2 and Area 310 construction. (manpower: ~300)
- ◉ *Selco Mining Corporation (Selection Trust): **South Bay Mine**, Ear Falls, ON*
Prime contractor for the construction of a 500-tpd mine plant, infrastructure, townsite, and recreation facilities near Ear Falls, ON. (manpower: ~110)

Major Maintenance Contracts

- ⬢ *Agrium Inc. (Cominco Ltd.): Vanscoy Mill and Ancillary Facilities*, Vanscoy, SK (manpower: ~80)
- ⬢ *Cameco Corporation (Eldor Mines/Gulf Minerals): Rabbit Lake Mill and Ancillary Facilities*, Rabbit Lake, SK (manpower: ~130)
- ⬢ *Areva Resources Canada Inc. (AMOK Ltd.): Cluff Lake Mill and Ancillary Facilities*, Cluff Lake, SK (manpower: ~50)
- ⬢ *Curragh Resources Inc.: Curragh Mill and Ancillary Facilities*, Faro, YT (manpower: ~35)
- ⬢ *The Mosaic Company (IMCC Canada Ltd.): K1 and K2 Mills and Ancillary Facilities*, Esterhazy, SK (manpower: ~70)
- ⬢ *PCS Potash (Allan Potash Mines): Allan Potash Mill and Ancillary Facilities*, Allan, SK (manpower: ~50)
- ⬢ *Selco Mining Corporation (Selection Trust): South Bay Mill and Ancillary Facilities*, Ear Falls, ON (manpower: ~20)
- ⬢ *Syncrude Canada Ltd.: Fort McMurray Feeder-breaker Assembly*, Fort McMurray, AB (manpower: ~20)

Safe, competent, secure.

ALTO places a high value on safety, performance and client confidentiality.

This fact is underlined by the many long-term contracts awarded to ALTO.
